

## RELOCATION TO CHINA

### Client testimonial

*" I strongly recommend other companies to use C3 Consulting when they send employees to China on shorter or longer stays. It is a brilliant seminar with a focus on your (expat) future life in the Chinese society. No doubt that it has made it much easier for my family to relate to the world that we soon are going to be part of."*

*Jesper L. Thomsen, Vice President,  
Zhuhai Site, Coloplast A/S*

**Are you going to be relocated to China for a shorter or longer period of time? And will your family come along?**

**C3 Consulting offers an expat seminar that prepares you and your family to live and work in China. The seminar ensures that you as a family gain the most from the settlement in China.**

### Content

The expat seminar is customized according to your family's wishes and interests. Before the seminar you and your partner are interviewed on your expectations and thoughts on settling in China. This process ensures a relevant and personal seminar. The following subjects can be a part of the seminar:

- Which possibilities does the expatriation give you professionally, personally and as a family?
- What about the children? How do you help the children to have the best possible start at school etc?
- How do you create a network in China?
- What is culture? Why is it important to understand culture?
- Chinese history, culture, and society
- What about the Chinese language? Can you learn it?
- Is it possible to love China?

### Outline

The training in itself is usually conducted on one day. It consists of exercises, short presentations and dialogues on the stay in China. Before the seminar we recommend that you make a log book where all family members can write down questions and thoughts about the stay, which we have to address during the seminar.

### Benefits

Your benefits of the seminar:

- Consciousness on the strengths and challenges within the new expat family
- Matched expectations between the employee and the partner on their personal and common goals
- Methods to create a good network for the family in China
- Applicable knowledge on the society that you will be a part of
- Training in how to communicate across culture
- Counselling and guidance on specific expat issues
- Optimized working conditions for the stationed manager/employee

It is possible to have a follow up visit during your stay in China. Upon returning home, the expat seminar can be supplemented with a repatriation course. During this course we create an action plan for how you can readjust successfully to life in Denmark – on a personal, social and professional level.

### Target group

The expat seminars conducted by C3 Consulting are relevant for managers, employees and families who are relocating to China. Children above 8 years of age are welcome to participate. In that case, parts of the training are customized directly for the children.

### Practical information

You and your family set the agenda for the relocation preparation. The seminar is informal and we often meet in private settings. Together we plan the content, time and place. The seminar can be held both in Denmark and in China. The relocation preparation is often combined with C3 Consulting's course in Chinese language for expat families. For more information see [www.c3consulting.dk](http://www.c3consulting.dk).
